## Interesting Exhibit of Rose Making

In response to numerous requests from our patrons, we have continued the Demonstration of Rose making for the balance of the week. On the second floor, adjoining the Millinery Department, two young women from the factory of one of the largest flower makers in the country are busily engaged in creating beautiful American Beauty Roses. As their deft fingers produce the loveliest queens of the garden, you will gain some idea of the wonderful advance made in flower making. The roses thus created by these experts are marvels of naturalness and seem almost to exhale the sweet fragrance of the real blossoms blooming in a garden. (Second Floor—No Charge.)
